

Printing Applications

Grade Reports

Are you currently printing grade reports on pre-printed custom forms?

Are there complaints from grades that are printed too lightly or even off the page?

Since postage is already being paid for to mail the grades, wouldn't including targeted messages to get the most out of your mailing dollar make sense?

If you answered yes to one or more of these questions, Objectif Lune and your print solutions provider can tailor a solution to fit your individual needs.

SOLUTION IMPLEMENTATION DETAILS

Take the existing print data stream and with the PlanetPress Suite, the output can be reproduced on Z-fold pressure seal stock on high quality PostScript® printers. Once printed, the Z-fold is passed through a folder sealer ready to be put in the mail. This media is significantly cheaper than the selectively carbon coated multi-part forms.

Incorporate targeted messages to make the most of your postal dollars:

- If all the grades are A+; print "well done!" If the grades are F-; print "sign up for summer school at..."
- If the student is a member of certain clubs or organizations, include information on upcoming events.
- If there are messages about school wide community or fundraising events, the grade reports would be an opportune time to include them.

For more information, please contact your local authorized print solutions provider.

- Print crisp, clear grade reports
- Incorporate targeted messages to get the most out of postal dollars
