Mr. Johnson,

I would like to personally welcome you to **Walley's Health Club**. You have made a choice in a club that cares about it's patrons. Your satisfaction and well being is our main concern.

To help you get started I've provided you with a listing of all the gym departments. In addition, I've included coupons from some of the local health and fitness businesses near you. Hopefully, this will save you time and money as you start your health program.

As your assigned training consultant, I am interested in helping you reach your fitness goals. Should you wish to contact me or the gym, just give us a call.
